Kirtas Technologies Signs First Sales Agent for Pacific Region

June 23, 2004, Victor, NY – Kirtas Technologies announces that SINFOnia Information, Inc. in Taipei, Taiwan is their newest authorized sales agent and first representative in the Pacific Region. SINFOnia provides high quality imaging applications and secure content solutions for customers in government, academia, libraries, finance, security, insurance and service bureaus. They will be marketing the APT BookScan 1200™ to customers in Taiwan and mainland China.

“SINFOnia’s customer base and current customer applications are ideally suited for the unique digitizing capabilities of the Kirtas system, making them a natural addition to our efforts to introduce our new automated book scanning technology to their region of the world,” says Robert Gregory, Vice President of Operations for Kirtas Technologies. “They will market it as part of an established portfolio of knowledge management and imaging technologies. They will also provide customer training and support for the Kirtas system.”

“We are excited to be involved with the innovative technology offered by Kirtas Technologies,” says Ben Chu of SINGOnia. “We see terrific potential and already have prospective customers.”

Kirtas Technologies APT BookScan 1200™ is part of a full turn-key solution that enables a fully integrated workflow from automatic book scanning at 1200 pages per hour to post-processing and pdf file creation. The revolutionary technology redefines digitization of all bound documents, delivering gentler handling and higher quality digital images faster, with fewer errors and at a lower cost than any other solution in the marketplace. The Kirtas system offers customers a high level of flexibility in the output format—TIFF, JPEG and a special compressed PDF file format. It is also capable of placing the finished files on a variety of output media—CD, DVD or external hard drives for large orders.

Editor’s Note: *More information and an interactive demo of Kirtas Technologies’ APT BookScan 1200™ can be found at the company’s website: www.kirtas-tech.com/demo.htm. Product photos and logos can also be found online.*
