

FEATURES:

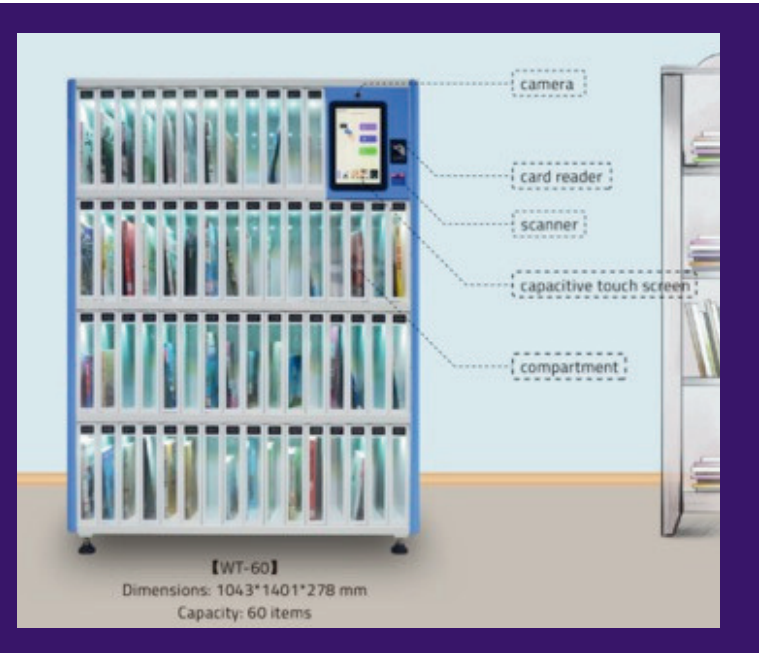

- **Easy-to-Use Interface**
 - The embedded Android OS with a simple, intuitive interface delivers more familiar experiences that take no timer for the beginner to start.
- **Placed Anywhere**
 - This tiny unit is so fantastic for increasing access to library material at a fraction of the cost. It can be placed in a classroom, vestibule, corridor, library, etc.
- **Multiple Compartments Design**
 - Use a grid of numbered compartments with transparent doors to offer browsable, quick, and secure borrowing and returning experience.
- **Built-in Camera**
 - The camera comes with an adjustable viewing angle to suit different heights of users and offers a hassle-free way to sign into the account by face recognition.
- **Universal Card Reader**
 - The embedded card reader offers secure authentication backed by a barcode or RFID technology card to suit practically any need.
- **Different Model Capabilities**
 - It provides ultimate flexibility to fit your needs and space as different models with small or large capacities for your options.
